A. E. MICHAEL'S,
A GOOD PLACE TO TRADE.

Heard on Main Street.

Jonsey—It's funny how these modern girls take to some things and not to others.

Ernie—How so?
Jonsey—Well, lots of 'em paint but not many of 'em hang paper.

On the Side.

That mist have been a severe hail storm near the Grove last week, as one of our prominent ball players who had been caught in it, appeared on Main street Sunday afternoon with a Harvested eye.

The young man just graduated from college, with his degree of A.B. will soon be hustling to learn the rest of life's alphabet.

Sam says the loose leaf system dates back to Adam's time in the Garden of Eden.

Johnny Miller with U.S. Army

John A. Miller, a former Stony Plain boy, is now serving with the United States Army, in Hawaiian Islands. He arrived at Honolulu Mar. 25, 1924, and was assigned to Co. M, 35th U. S. Infantry, with station at Schofield Barracks.

John, who is the son of Mr. and Mrs. Philip Miller, entered the military service at Grand Rapids, Mich., and shortly thereafter was sent to Fort McDowell, California, where he was stationed until embarking for the Hawaiian Islands.

Johnny had always taken a keen interest in sports while in Stony, having been a member of the Athletic Association, and a player on the base ball and hockey teams.

Schofield Barrack, one of the largest military posts maintained by the United States army, is situated about 25 miles northwest of Honolulu, on the island of Oahu, the second largest island in the group.

Friday's Lawn Social

On Friday night the Ladies Aid held a very enjoyable ice cream social on the lawn of the Parsonage. A good crowd attended. They ate a hearty supper of cake, tea, ice cream and candy. The lawn was decorated very nicely with trees and Chinese lanterns which were lighted at dark. Two gasoline lamps also lit up the place quite nicely. About half past ten the crowd all went home satisfied with having a good time.—Contributed.

Answers to Correspondents.

A. K. Inga: In answer to your inquiry of the 22nd, we believe your complaint regarding the alleged nuisance should be made to your councillor, who is a member of the Board of Health for your district. The Public Health Act is quite clear on this, sec. 22 (3) says: "In every village and municipal district the local board of health shall be composed of the members of the Council and the sanitary inspector (if any), the secretary-treasurer of such Council shall be the secretary of the board."

Farmers Meet at Lacombe

Articles of association, membership agreement in connection with the proposed U. F. A. cooperative marketing organisation of all farm products (with the exception of grain) will be presented for discussion at the provincial meeting of representatives of livestock shipping associations, the executive committee of U. F. A. Cooperative Marketing Committee, and all farmers and stock raisers of Alberta which meets at Lacombe today.

The meeting is attracting those interested from every section of the Province, and it is expected that definite steps will be taken in regard to a cooperative marketing organisation.

Shoppers are reminded the Wednesday half-holiday is now in operation in Stony Plain and continues thru July and August.

LOCAL NEWS.

IT PAYS TO ADVERTISE!

Mr. and Mrs. Shearer were in Stony this week, having motored up from Calgary.

Capt. Gosset has arrived home from his trip to England.

Mrs. E. Somerfield, who had been visiting at her old home near Ladang, has returned home.

Mrs. C. E. Clarke has as guests this week her sister Miss Schneider, and Miss Ford, both of Oswego N.Y.

Mrs. Wm. Robertson is a guest this week with Mrs. M. McKinlay, at the Lake.

Miss Annie Outway and Mrs. Acre, who had been visiting Mrs. R. M. Outway, left Friday for their homes in Dominion City, Man.

Jack Messenger was down from Entwistle over the weekend.

Mr. F. W. Lundy is taking a week's rest at his cottage at Selma Beach.

Messrs. Chesser and Steekle motored to the City on Monday.

Atok Stockwell, recently teacher at Comet, is spending the vacation at his old home at Wellsdale.

Ed Kibblewhite, principal at the local school, is resting from his labors at the home of his parents near Vermilion.

Enforcement Officer Schauer of the Liquor Squad gave Stony the once-over the beginning of the week.

Mr. Ghiselin has purchased a pair of riding breeks and a cayuse, to help him get round Inga M. D. on his work as assessor.

Mr. Charles Schulz came up from Vegreville on Monday and is making a survey of his recent acquisition, the local Demonstration farm.

Mike Ducholke got in a car of binders this week.

Mr. Michael is enclosing the Montreal Bank grounds with an iron fence.

The new edifice in Stony for Lutheran worship is nearing completion, under the superintendency of Contractor Gitzel. Owing to the delay in securing material for the foundation, the building will not be ready by the appointed time, but it is expected the opening services will be held Sunday August 10.

REPAIRS TEA "is good tea" and extra good is the ORANGE PEKOE QUALITY

The Canadian Senate

The much debated question of reform of the Senate of Canada is at long last to be removed from the realm of academic discussion into the arena of practical politics. If it could only be removed at the same time from partisan disparagement this country would be the gainer.

Prior to the recent prorogation of Parliament, Premier King announced that at the next session the Government would introduce legislation having for its object an appeal to the British Parliament to amend the British North America Act as to confer on the House of Commons of Canada the same measure of authority and control over legislation initiated by that body as is now enjoyed by the British House of Commons.

Like the Canadian Senate, the House of Lords had a habit of "killing" measures passed by the Commons and sent to the Lords for their approval. Year after year the Lords had nullified the efforts of the Government of which Lloyd George was a member, and finally the consent of the Crown was obtained to a measure which provided that if a Bill passes the Commons three times within a period of not less than two years, it becomes law whether the Lords pass it or not. Since the passage of this Act, the House of Lords has not nullified the law of the Dominion.

Premier King proposes that the British Parliament shall confer on the Canadian House of Commons the same authority as is now enjoyed by the British House of Commons. In other words, if a Bill passes the Commons three times at three consecutive sessions the Senate shall be powerless to prevent it becoming the law of the Dominion.

It will be seen, therefore, that the proposal is not so much one of reform of the Senate as a curtailment of the veto powers of that body.

The Government has been forced to action by the rising tide of public opinion against the autocratic action of the Senate in "killing" legislation desired by a large majority of the people. This year, for a second time, the Senate destroyed the branch lines programme of the Canadian National Railways and deprived thousands of Western settlers of urgently needed means of transportation. In like manner the Senate vetoed the legislation providing for the distribution of the current funds belonging to the provinces, but to Canada's service men. The Senate also over-ruled the recommendations of the Halston Commission, a Parliamentary Committee and the unanimous decision of the House of Commons to make the soldiers' bonus permanent, and in other ways mutilated legislation designed to assist Canada's returned soldiers.

Inasmuch as the Canadian Senate is wholly and absolutely beyond the control of the people, and is probably the most undemocratic legislative body in the world today, showing an almost complete disregard for the wishes of the people, it has become an imperative necessity that, if it is to continue to exist, its arbitrary use of the veto power shall be restricted.

While it is a Liberal Government in Canada, as it was a Liberal Government in Great Britain, which is moving to curtail the veto power of the Upper Chamber, such action should not be made a party question nor a partisan issue. The Senate has mutilated and killed legislation passed by the Commons on the initiative of both Liberal and Conservative Governments, and the party in opposition today may be the victim of the irresponsibility of the Senate tomorrow.

In a democratic country like Canada, the elected representatives of the people must govern, and, unless some reasonable guarantee is provided that the people's will shall prevail, the people will eventually wipe the Second Chamber out of existence.

The Senate was designed to provide a check, a safeguard, against hasty legislation by the Commons on a wave of popular but passing enthusiasm, and to protect minorities against any aggression or injustice by the majority. But it was never intended that the Senate should usurp the right of nullifying the whole policy of the Commons and the Government of the country.

The proposal that legislation shall become effective if it passes the House of Commons three times is safe and sane. It provides adequate opportunity for the feeling of the country to be tested. If public opinion does not support the Commons, that fact will be made manifest, and the legislation will be dropped or satisfactorily amended. But if in three sessions the elected representatives of the people record their approval of any Bill, it is fairly safe to assume that it represents the will of the people and should become effective. And no non-elected, life-appointed body should be allowed to prevent it.

Many New Elevators

Fifty-Four Grain Elevators To Be Built In Saskatchewan

Sixty applications have been received from elevator companies for sites on the new Canadian National Railway branch lines, 54 of which are for points in Saskatchewan. Requests for sites have been made for six elevators on the Ste. Rose-Rorkerton line, the proposed location being Ste. Rose and Methley.

Construction of these elevators, with a total storage capacity of 2,000,000 bushels, would involve an expenditure, it is estimated, of approximately \$1,000,000.

Work on the construction of ten new elevators is proceeding already at points in Saskatchewan, while material, such as rock, sand and cement, is on the ground for the erection of four or five other buildings.—Press.

Work Among Indians

Appropriations Amounting to Three Million Dollars Passed at Ottawa

Appropriations amounting to approximately \$3,000,000 for work among Indians, confined mostly to the western provinces, were passed by the House of Commons. Of this amount \$1,554,000 was for educational purposes, and \$729,025 to assist young Indian students to set up for themselves and also to make loans to Indians for the construction of homes.

Hon. Chas. Stewart, Minister of the Interior, explained that this latter sum was the amount of the profits so far received by the Department of Indian Affairs from the Greater Production campaign.

Many a man is a bachelor today because the girl in the case had been taught to say "no."—A.

Distance Needed To Stop Motor Cars

Table of Figures That Should Be Memorized by Drivers

Every motor-driver should know exactly the minimum distance within which a car can be stopped when it is travelling at different rates of speed. And he should never forget that the ratio between the distance within which it can be stopped and the rate of speed at which it is going increases with the rate of speed. Thus, when the car is going at the rate of 30 miles an hour, the distance it must go before it can be stopped is much greater than double the distance when it is going at the rate of 15 miles.

If this fact were known and always remembered, there would be fewer cases of motor cars crashing through closed gates and into moving trains at level crossings.

In a bulletin issued by the U.S. Interstate Commerce Commission there is a table showing the distance required to stop an average two-horse motor car travelling at various rates of speed on a good level road. This table of distances, which follows, should be memorized by every driver of a motor car or truck:

Miles per hour.	Feet.	Miles per hour.	Feet.
5	25	111	
10	40	145	
15	45	184	
20	50	227	
25	55	275	
30	60	327	

Miller's Worm Powders seldom fail. They immediately attack the worms and expel them from the system. They are complete in themselves, not only as a worm destroyer, but also a highly beneficial medicine for children, correcting weak digestion and restoring the disordered system to healthfulness, without which the growth of the child will be retarded and its constitution weakened.

Princess Selling Art Treasures

The Princess Royal, mother of Prince Arthur of Connaught, has joined those people who have been turning their treasures into hard cash. The Princess has ordered about 40 pictures, including some old masters, to be offered at auction next month.

Clark's Beans With Pork

For the amount of food value which they contain Clark's Beans and Pork are a most economical as well as a most excellent food.

"Let the Clark Kitchens help you."

London Surgeon Has Extraordinary Case

May Seed Lodged In Man's Eye Had Sprouted

An amazing case was recently treated at Gloucestershire Royal Infirmary. A farm laborer got something into his eye which he was unable to remove. The physician of the man he visited the hospital.

The ophthalmic surgeon, on making an incision above the eye, discovered a green blade of grass over an inch and a half long, lying between the eyelids, which had sprang from a hay seed, which was also removed from the eye.

Apparently the hayseed had become lodged in the corner of the eye socket, and the discharge from the tear duct had watered it, and the blade of grass growing from it had received sufficient light through the eyeball to make it green.

The operation was quite successful, and the man's eye is now as good as ever.

Relieves Asthma at Once. If you could read the thousands of unsolicited letters received by the makers from grateful users you, too, would realize the remarkable power of Dr. J. D. Kellogg's Asthma Remedy. All cases, incipient and chronic, are benefited by this great family remedy. Why suffer or experiment with worthless preparations when the genuine Kellogg's can be purchased everywhere.

Some men never do a charitable act unless there is someone around to applaud.

Eyes Are Getting Weaker

Modern Demand On Eye Has Increased Defective Vision

Many of us know that eyesight is not what it used to be. It is certainly our own fault. Now the American eyesight conservation council bears its out in a statement that it is the modern demand on the eye that has overstrained it. Too much glare in some places and too much dimness in other places, electric light here and darkness there, cause excessive contrasts which eyes cannot stand without injurious effects. As a result nine out of ten adults have defective vision, and four out of every ten school children add to the trouble by contracting serious defects.

The United States national committee for the prevention of blindness has issued a statement wherein eight causes are given for the increase of defective vision, as follows: Sore eyes in babies—too often regarded as caused by colds; inflammation of the eyes' membranes, called conjunctivitis; granulated lids, a contagious disease; injuries caused by "something in the eye"; the so-called "stye," caused by the breaking of tiny veins as a result of measles and scarlet fever; cross-eyes, which can be corrected if treated in time, and progressive near-sightedness, which glasses correct. The best prevention is to avoid eye-strain.—St. Thomas Times-Journal.

Growth Of Population

Population Of U.S. On July 1 Was 112,078,611

The population of the United States of America, as at July 1, 1924, was 112,078,611, according to a Government census.

Seventy-five cities now have a population of more than 100,000. New York has reached the six million mark. Chicago now boasts of 2,500,000; Philadelphia the 2,000,000 mark; while Detroit and Cleveland are around the 1,000,000 mark.

A pleasant medicine for children is Mother Graves' Worm Expeller, and it is excellent for driving worms from the system.

Radio On German Trains

Beginning in the autumn, German express trains will be equipped with combination radio and wireless telephones, enabling the sending of wireless messages, telephoning and the giving of radio concerts while trains are speeding on their way.

New Citizens Received

Eight Hundred Persons Given Naturalization Papers During May

Canadian naturalization papers have been granted to 833 aliens during the month of May, according to figures in the latest issue of The Canada Gazette, and of this number 106 are residents in Alberta. Thirty-eight minor children also gain Canadian citizenship.

America leads the nations granted naturalization papers, in Alberta with a total of twenty-five, Austria is next with sixteen, while Russia is third with thirteen. Germany ran Russia close with a total of twelve, while Poland and Italy each have nine, Roumania six, Greece four and Denmark and Norway three each. Two Hungarians have been granted papers, and Holland, Belgium, Sweden and Czechoslovakia, one each.

Fifty-two of the naturalization papers have been granted to farmers, twenty-four to millers, restaurateurs granted paper number six, and laborers next in order with five. Other occupations represented in the list are shoemakers, glass workers, bank clerks, salesmen, bookkeepers, students, etc.

Reduced Production Is Forecast

Reduction of 286,000,000 Bushels Indicated For Northern Hemisphere

A reduction of 286,000,000 bushels in the wheat production of eleven of the leading producing countries of the northern hemisphere, as compared with last year's crop is indicated in reports to the United States Department of Agriculture. These eleven countries, producing 54 per cent. of the world crop will have 1,912,000,000 bushels of wheat this year, as compared with 2,198,000,000 last year. A large part of the reduction is due to the smaller crop in Canada.

Argentina is producing the largest corn crop since 1914-15, with a total of 276,756,035 bushels as compared with 176,102,739 bushels last year. It is calculated Argentina will have an exportable surplus of about 150,000,000 bushels of corn this year.

In the old days the word "simpler" meant "foolish"; now it is used only to make fools look more.

This is a cold, cold world—and the coal dealer is glad of it.

Why Busy Women Want SMP Enameled WARE

Busy women want SMP Enameled Ware because it will bring food to the boil almost twice as fast as all-metal utensils, and completes the cooking sooner. A woman can wash SMP Enameled Ware utensils faster than utensils that have to be scrubbed and scoured.

Three finishes: Pearl Ware, two coats of pearly-grey enamel inside and out. Diamond Ware, three coats, light blue and white outside, white lining. Crystal Ware, three coats, pure white inside and out, with Royal Blue edging.

Especially Prepared for Infants and Children of All Ages

Mother's Fletcher's Castoria has been in use for over 30 years as a pleasant, harmless substitute for Colic Oil, Paregoric, Teething Drops and Soothing Syrup. Contains no narcotics. Proven directions are on each package. Physicians everywhere recommend it. The kind you have always bought bears signature of

Chas. H. Fletcher

Region of Hudson Bay Declared To Be Most Favorable For Settlement

The country to and around the Hudson Bay is supposed to be barren, but this is an ordinary fallacy of those who cannot estimate the resources of a new country. Mr. E. Mosher, of Halifax, was at Churchill from September 3 to January 7, superintending the building of the barracks for the Royal Northwest Mounted Police. "So far as the weather is concerned, I would as soon have spent the months in Churchill as in Halifax. He did not find the cold any more severe than in the east." According to his observations, "the lowest temperature registered was 29 below zero."

The Rev. Dr. John McDougall, pioneer missionary, describes the country south of Split Lake as favorable for settlement, the growth of vegetation almost tropical, and "the climate is far more moderate than in Southern Manitoba, the home of No. 1 hard wheat." Summer frosts are practically unknown.

James Robson, who superintended the building of Fort Prince of Wales at the mouth of Churchill River, after five years of residence, writes in 1922: "The marshes and low ground are full of good grass, and there is a patch of ground near Eskimaux Point which though exposed to the north and northeast, produces good red clover, timothy, turnips, small carrots and lettuce and other salad; blackberries also grow upon the hill."

The cattle here would thrive and do well if the same care was taken of them as is generally taken of them in England. The horses had been kept for several years and were constantly employed in drawing stone and other material for the fort. Dr. Bell, nearly a century and a half later, saw some very good potatoes and turnips growing at Churchill. He observed an abundance of hay in the neighborhood, and near the bay open grassy land of unlimited extent affording extensive pasturage. He found the small herd of cattle were in 1870 30 being raised, and he calved at the fort, whereas it was formerly not considered possible to breed stock there. Good butter was made at the fort.

The fisheries have been slightly referred to by Mr. MacLachlan, but we have the evidence of a number of responsible authorities that the lakes from Le Pas to Churchill are swarming with whitefish and other food fish like trout, pike and even suckers. Salmon, sea trout and whitefish are, Mr. O'Sullivan says, "both plentiful and of excellent quality, the porpoise or white whale is very common in the mouth of the Churchill." "The barren ground caribou herd in hundreds over the equator and wild geese, duck and ptarmigan there by the thousands and about." Ungava's shore streams on the east side of the bay abound in the finest salmon, in trout and speckled trout unlimited.

Mr. McKenna, in reviewing the evidence of a century and a half, adds: "It would appear that Canada has at that point on Hudson's Bay a safe port open for several months in each year, and a site for a city, with immense fisheries at its doors, and large possibilities as to the development of the mineral wealth deposited in its neighborhood."

The great barren ground herd of caribou pass yearly within 30 miles of Churchill, and under Government regulation are supervised a total of from 5,000 to 50,000 could yearly be taken without decimating the main herd, provided the wolves which prey on them, taking tens of thousands of young animals, were destroyed, which can be done.

Waterpower is everywhere on a splendid scale along the Churchill, the Nelson and tributaries, far more than necessary to electrify the whole line.

Most of the route seems to be fairly well forested with spruce, poplar, tamarac, balsam, aspen, white spruce and black spruce, etc. The pulpwood supply running from Le Pas to Split Lake, ten miles each side of the lake, is estimated at nearly six million cords, a very low but safe estimate. In the absence of a very large amount of fuel timber, each of these explorers emphasizes the presence of large and deep beds of good peat, which eventually will be found an excellent substitute for many purposes.—Moore Law Times.

The Livestock Market

Select Bacon Hogs Are Now Bringing Better Prices

There is a noteworthy feature in the Dominion Livestock Branch market report for the week ending July 9. Inasmuch as the top price for select bacon hogs at Toronto is quoted at \$9.75 as against \$8.35 for the same date last year, thick smooth hogs at \$8.80 against \$8.50, and heavies at \$8.25 against \$7.50. For other kinds the prices average unchanged. Lambs and light sheep also show an increase, the former of the good kind being quoted at \$17 compared with \$16.35, and common at \$15.75 compared with \$14.10 prices. Heavy and common sheep were a bit down, but light sheep are quoted at the top as \$6.50 compared with \$6.25 last year.

From January 1 to July 3 this year the cattle shipped to England numbered 35,820 compared with 31,694 during the same period last year, an increase of 4,126. The sales of cattle at the principal stockyards of the country this year total 348,762 compared with 317,068 last year, 146,422 calves against 129,998, 938,026 hogs against 920,708, and 76,237 sheep against 82,989.

Record Of Performance Applications

Dominion Livestock Branch In Position To Give Benefit Of Service

A few weeks ago reference was made in the Agricultural Press to the fact that owing to lack of a sufficient number of inspectors to keep pace with the expansion of the work, the Dominion Livestock Branch had been forced to discontinue the acceptance of Record of Performance applications from farms not already on its lists. Largely as a result of representations made by various Breed Associations, counsel has since authorized an increase in inspection staff with the result that the branch is again in a position to give the benefit of this service to all breeders who comply with the rules. Applications received during May and June, which would otherwise have been refused, have been included in the lists.

Advertisers Note

Advertisers should note that the mosquito, which does a humming business, is not satisfied with one insertion.—Kingston Standard.

Could Produce Market For Cattle

Pool System Would Secure Sales In Europe Says P. W. T. Ross

"The Canadian farmer has a reputation in Europe second to none as a beef grower. He does not need more education, as is so frequently stated. What he needs is a market. The quality of Canadian cattle is fully 50 per cent. better now than it was three years ago."

This was the declaration of P. W. T. Ross, of Toronto, in an interview in the Ottawa Citizen, the other day.

Mr. Ross was for several years in the cattle business in France. At the cessation of hostilities he was attached to the commissariat general of Canada in France.

After outlining the situation and the reason for the unfavorable conditions, Mr. Ross justified his criticism by suggesting a remedy.

"I am confident of being able to produce what does not now exist," he said, "and that is a good market in Europe for beef springer cows, thin cows, bulls and dairy cows. This is only possible by acting directly in conjunction with the farmers' co-operatives and by giving them the maximum return that the markets will allow."

In order to make this scheme feasible, Mr. Ross considered that the farmers should form pools for their stock in co-operation with the Provincial Governments. This would be necessary in order to ensure that shipments would be continuous, this condition being essential in order to secure space on the steamboats.

Mr. Ross suggests starting on the basis of a yearly shipment of 10,000 head of cattle. He would establish headquarters in France for the handling of the beasts and would sell them from pasture through the large local markets such as those at Rheims, Strasbourg, Metz, Nancy, Lyons, Rouen and similar cities. The overhead expense he estimates at \$15,000 a year for salaries and administration.

Favorable Trade Balance

Canada has a favorable trade balance of nearly \$200,000,000 for the twelve months ended May 31. During that period Canadian products exported were worth \$1,069,715,800. Imports totalled \$872,567,752. Exports increased by \$110,000,000 over 1923 and imports increased by \$32,000,000. The chief increase in exports was in agricultural products and wood and paper.

Preacher (at the reunion meeting). "I have only one regret—I miss so many of the old faces I used to shake hands with."

Rapidity With Which Industry Is Crowding Back The Northern Frontier Of Canada

The rapidly with which industry is crowding back what was at one time considered the northern boundary of possible settlement in Canada gives cause for serious thought as to whether this country has such a limit says the Natural Resources Intelligence Service of the Department of the Interior. Both east and west and in the central provinces new developments are taking place within what was at one time considered the undisturbed habitat of wild life and the fur trader.

In British Columbia, on the Portland Canal, great developments are taking place in mining and water-power. The Granby Consolidated Mining and Smelting Company's Higgins mine, at Anxox, is the largest copper producing mine in Canada. In 1922 its output was 20,334,180 pounds, or nearly two-thirds of the total copper production of Canada for that year.

The Premier mine, which, in 1922 produced 123,337 ounces of gold and 4,267,368 ounces of silver, is also located on the Portland Canal, approximately 140 miles north of Prince Rupert. Each of these mines has developed hydro-electric power for its operation.

In the Yukon development of the silver-lead mines of the Mayo district is proceeding satisfactorily. In 1923 the district showed increased production, while still greater results are looked for. The Mayo district is approximately the same latitude as Dawson.

In the northwest territories radio broadcasting stations are being established at Fort Simpson, on the MacKenzie River, and at Herschel Island, in the Arctic Ocean at the mouth of the Mackenzie.

In Northern Alberta arrangements are being made for shipping out bituminous sands from the enormous deposits in the vicinity of McMurray, which point is now almost reached by railway. A company has been formed recently to develop the known salt deposits in the same area, a bed of commercial rock salt 14 feet in thickness having been proved by drilling.

At Fawn, on Lesser Slave Lake and on the Edmonton, Denevan and British Columbia Railway, a modern fish freezing plant is being constructed with a capacity of 150,000 pounds of fish. During the fishing season pike and pickerel, which reach the maximum of excellence in the cold northern waters, will be filleted and frozen. In the autumn these will be shipped to the markets of Eastern

Canada and the United States, where exceptionally high prices are secured. In Northern Manitoba, 350 miles north of Winnipeg, a hydro-electric plant is being constructed on the Gaspe River to supply power to the Bingo-gold mine, at the head of Herb Lake. This mine is being developed by British capital.

In Northern Ontario the railway has reached out to Tin Can Portage on the Ashland River, and new mining areas are being opened up. The Kirkland Lake and Porcupine areas of Northern Ontario have made some wonderful production records.

One of Canada's largest water-power developments is in course of construction at the grand discharge of Lake St. John in Quebec, about 75 miles north of the city of Quebec. Here the Quebec Development Company is constructing dams and powerhouses to use the waters of the Saguenay River. The ultimate capacity of the plant is expected to be 420,000 horsepower. The dam being erected will be 100 feet high and 7,100 feet long.

In the northwestern portion of the province, in the Rouyn district, active prospecting and exploratory work is being carried on, with the expectation that development of the mineral resources of that district will be commercially feasible. Railway extension to the area is proposed, in the Abitibi and Temiskaming districts colonization is being actively promoted by the Provincial Government.

On the Northwestern coast of Nova Scotia the most fields are reported about to be developed on an intensive scale. A company has recently been incorporated for that purpose.

The northern limits of Canada are rapidly moving back, and agriculture and industry are following closely the new developments. What was once looked upon as but a blank on the map may be expected, within a reasonable length of time, to yield its tribute, not only in furs but in many and varied products. Forest and power developments, to the sum total of the value of the natural resources of Canada.

China Needs Our Wheat

Growing Importance of Orient As a Market For Canadian Wheat

The growing importance of China as a market for wheat from the United States and Canada is described by W. McLevill, a former Minneapolis miller, who for 20 years has been an adviser to one of the large native milling companies of China. There are now 23 modern flour-milling companies in Shanghai alone, Mr. McLevill said, and they prefer to use wheat from the States exported to their country as the native product for the reason that the latter is so poorly handled enroute to the mills that it is not satisfactory. Much Canadian hard wheat is used by the Shanghai mills.

Flour consumption in China is growing steadily, said Mr. McLevill. Although Chinese wheat production is on the increase he doubted if it would catch up with the demand for wheat flour. "Therefore, he said, China is likely to continue a good buyer of American wheat. During the war the Shanghai mills developed a good export business in flour, but at the present time exports are prohibited, so that the mills must find a home market for their entire output.

Theory Worked Too Well

To test the theory that "any bright criminal could prove himself insane and thus escape punishment for his crimes," a Des Moines, Iowa, newspaper reporter played the part of the insane man, was officially adjudged insane by the county commission, which remanded him to the state hospital at Charid, all in such fine order that the young reporter had difficulty in estimating himself.

Trade With United States

Canada's trade with the United States is increasing. During the twelve months ended May 31, Canadian exports to the United States were \$428,094,421, an increase of forty millions over the previous year; imports from the United States were \$527,744,806, an increase of nearly fourteen millions over the previous year.

WHERE MIGHTY RIVERS ARE BORN

From the snow-capped peak of Mount Robson and other great mountains along the main line of the Canadian National Railways in Alberta and British Columbia, there is a constant trickle of water, which, commencing as a small mountain torrent, grows until it reaches the dimensions of a mighty river on its way either to the ocean, to Hudson's Bay or to interior lakes. Fields of ice, stretching as far as the eye can see, provide the source of many streams which later

become large enough to bear the burden of commerce from the interior to the ocean outlet to the world.

Mount Robson, which is seen from the trains of the Canadian National Railway, is 12,968 feet high, and the highest peak of the Canadian Rockies. This year the Alpine Club of Canada, numbering among its members the most eminent authorities on mountain life, will hold its annual camp at the foot of this monarch of the Rockies and numerous peaks surrounding the district will be climbed by the hardy lovers of outdoor life.

Canadian National trains stop at the foot of Mount Robson in order that travellers may see this massive peak, towering until it seems to plane the very sky-line, and scarcely a tourist passes through who does not attempt to get one or more photographic memoirs of its or her trip.

Photograph No. 1 shows Mount Robson as it appears from the Canadian National Railway train; No. 2, the massive ice areas which he behind Mount Robson; No. 3, one of the mighty glaciers which feed the ever-growing mountain streams.

MANY CANADIANS ARE RETURNING FROM THE STATES

Ottawa.—Immigration to Canada since the opening of the season of navigation in April aggregated, to the end of June, 89,000 of which 32,000 arrived from overseas ports, and 57,000 were Canadians returning from the United States. The latter is considered a particularly hopeful sign. The statistics indicate an advance over the arrivals in April, May and June of last year. It is all essentially "directed" immigration. In other words the great volume of those coming to the country comes with the assurance of employment.

The larger number are arriving with their passages being assisted. It became necessary some time ago to change the regulations in regard to assisted passages, so that people "nominating" others for passage must give in detail the arrangements made for their employment. This is checked up by an official of the department. Prior to this modification, the steamship companies were charged with too much local in securing nomination papers from farmers or others, and there was some tendency to overwork by immigration to Canada the restrictions of the United States quota law. The total figures of immigration do not indicate, however, anything but a very normal movement.

Nationalists Adopt Belligerent Attitude

Government Receives Resolution Containing Demands of German Party

Berlin.—The German National party of the Reichstag has adopted a resolution which it has sent to the Government, demanding that Germany should not participate in the London Inter-Allied conference except on an equal footing with the allies.

The party also demands that prisoners held by the French and Belgians be immediately released and be allowed to return to the occupied territories. "In addition, the resolution insists on the evacuation of the Ruhr, the restoration of German railroads and the recognition of the authority of the German state, that Germany receive guarantees against further annexations and that the period of occupation in the bridgehead zone be calculated from October, 1920.

The party declares it will oppose all proposed settlements which do not meet with its approval.

Canada Willing to Co-operate

Government Will Appoint Nominée to Empire Food Committee

Ottawa.—The Government will shortly, it is expected, appoint a nominee to the Empire Food Committee proposed by the British Government. The Government has accepted the suggested permanent economic committee which Canada opposed at the Imperial economic conference. The ground then taken by Canada was that a committee, given practically carte blanche to investigate all phases of economic questions, was objectionable, but that Canada would co-operate in a committee appointed to deal with any specific object.

In the case of the Empire Food Committee the Government has indicated its willingness to participate, but the negotiations have not yet advanced to the stage of definite appointment.

Art O'Brien Released

London.—Art O'Brien, former President of the Gaelic League in London, who was sentenced on July 6, 1923, to two years for seditious conspiracy, has been released from prison.

Feet Sore?

Rub well with Minard's. It relieves inflammation, soothes and heals.

W. N. U. 1535

Valuable Mineral Discovery In Peace River Country

Edmonton, Alta.—One of the most valuable minerals in the world today, iridium, has been discovered in the upper waters of the Peace River by the Canyon Gold Mining Company. A representative of an Edmonton syndicate returned from the north, after having filed claims for ten miles along the river, and he is of the opinion that a real old-time stampede will result from the discovery. The precious metal was discovered when drifters of the Canyon and Mining Company, drilling for gold, discovered quantities of the metal on the red rock.

Decrease In Bank Clearings

Considerable Drop Shown in Business Transacted During June

Ottawa.—The bank debits or the amount of cheques charged to individual accounts at the clearing house, centres of Canada as reported to the Dominion Bureau of Statistics were \$2,056,775,141 in June as compared with \$2,290,109,812 in the preceding month. This represents a decline of more than \$233,000,000 or 10.1 per cent. Nearly half of the decline was accounted for by seasonal tendencies and some part of the remainder was due to the fact of there having been five Sundays in June this year.

The decline in June was equivalent to 5.4 per cent. When adjustment was made for the seasonal variation, an other contributing cause of the decline was the dropping off in government business as shown by a fall of about \$33,000,000 in the bank debits of Ottawa.

The bank clearings declined from \$1,731,500,000 in May to \$1,259,300,000 in June or about 12 per cent. When adjusted for seasonal variation, the decline by factor determined by the experience of the last ten years the adjusted clearings declined 7.3 per cent. only.

Escapes Death Penalty

Eskimo Sentenced to Serve Five Years in Penitentiary

Edmonton.—There will be no hanging in the Arctic this year. Ikakpallik, charged with the murder of Kattia, wife of Havogah, was found guilty of manslaughter only, and sentenced to five years in Stony Mountain penitentiary, according to advices received here.

The judicial party was held up at Alkayik only a day or two by the delay in bringing Eskimo witnesses, so that the indefinite postponement of the trial reported in northern wires the other day, did not last long. Judge Lucin Dubuc, with Mrs. Dubuc, Miss Yvonne Richard, the judge's secretary, Irving Howatt, defence counsel, and J. H. McRae, defence counsel, all of Edmonton, are now at McMurchy, having completed their river journey of several thousand miles without mishap. The Eskimo prisoner, in charge of the Mounted Police, was brought to McMurchy on the same boat, and will be taken to Stony Mountain penitentiary at once.

Storms On French Coast

Fishing Craft Missing and Olive Groves Destroyed By Mail

Paris.—Heavy storms have swept the west and south coasts of France, seas running exceptionally high and a number of fishing craft are missing. Lightning wrought havoc in the Montpelier region and several houses at Laure were struck by lightning and burned. A number of olive groves were destroyed by hail. Serious damage was inflicted to the farming region of Lyons and the vineyards bordering Switzerland. The vicinity of Geneva also suffered. At Royan the waves swept a girl of seven off her feet and she was rapidly being carried out to sea when Pierre Taltizinger, a deputy of the Parisian constituency, leaped in and rescued her with great difficulty.

Coming West In Autumn

Calgary.—Premier King will come west in October this year and will probably spend a Calgary day on the course of his trip. Hon. Charles Stewart, Minister of the Interior, who was in Calgary in authority for this statement. He said that the Premier intended to make an extensive tour of the west in the autumn.

Victim Of Assassin's Bullet

ZAGHUL PASHA

Premier of Egypt, who was shot and wounded by an unknown assailant when about to leave Cairo recently.

Alberta Crop Prospects

Hon. Geo. Hoadley Denies Report Coming From Chicago

Edmonton.—"Quite unfounded," said Hon. George Hoadley, Minister of Agriculture, when asked about the Chicago-inspired report that Alberta will have only a 40,000,000-bushel wheat crop. No estimate has yet been made by the Government officials of the likely crop, and no information is yet available that will warrant even a reasonably accurate guess as to what the harvest will be.

"The situation is changing every day," said Mr. Hoadley. "And it would be impossible to make any estimate as compared with last year, or any other year. We are not saying anything that would give ground for such a report as has come from Chicago, but as a matter of opinion I will say that the 40,000,000 bushels look like an extremely low one. Present prospects even, to say nothing of improvements from day to day, are that we shall do very much better than that."

Last year's crop was over 100,000,000 bushels, and yet shall not be anywhere near as far behind that figure as the Chicago estimate would make it appear. If the speculators are trying to build the market with sensational stories about 'no crop in Alberta,' the minister went on, "they will doubtless play their game as they please, but the fact is that there is no foundation for the blue ruin story they are trying to spread. While it is unfortunately true there will be crop failures in some parts of the province, Alberta will still harvest enough wheat to be a factor on the market, and the rains now being reported from various places are materially helping the situation. I feel quite safe in saying that 70,000,000 bushels is a bad guess."

Going Direct to Alberta

Prince to Avoid All Stops On Way to Ranch

London.—The Prince of Wales, who as Lord Renfrew, will sail for the United States on the Berengaria on August 23, will leave the ship on a tender and land at Long Island, the Canadian Press learns. At the conclusion of the international polo matches between teams representing Great Britain and the United States the Prince will take a train from New London, Connecticut, to Calgary direct. He is anxious to avoid stopping in cities on either side of the border while on the way to his ranch in Alberta.

One Cause For Business Depression

Montreal.—The increasing demand for luxuries is partly responsible for the present depression in business, according to M. Lapointe, Secretary of the Quebec division of the Retail Merchants' Association of Canada, who has recently been investigating this question for members of the association.

Thornton Not Discouraged

Saskatoon.—"Nothing to be discouraged about," was the reply of Sir Henry Thornton, President of the Canadian National Railways, when asked in regard to crop prospects in the west. Sir Henry said he would wager the crop would "at least reach 275,000,000 bushels."

Tax On Grain Trading Is Allowed To Stand

Ottawa.—Disallowance of the Manitoba tax on trading in grain futures on the Winnipeg Grain Exchange has been waived by the Federal Government. It was learned on reliable authority, The status of this legislation is to be decided by the Privy Council where argument will be heard. It is expected, at the autumn session. It is in view of this that the Federal Government apparently has agreed to waive the right of disallowance and meet the request of H. R. W. Craig, Attorney-General of Manitoba. The act was passed at the 1923 session of the Manitoba Legislature. Shortly after the Government of Saskatchewan petitioned the Federal Government to "disallow" the statute of the ground that it was beyond the powers of the Manitoba Legislature to enact, inasmuch as it taxed Saskatchewan grain growers.

Superiority Of British Law

Criminal Justice in U.S. Injured By Newspaper Publicity Says Chicago Paper

Chicago.—Criminal Justice in the United States is now a Roman holiday, and the courts are the Coliseum, the Chicago Tribune says editorially, pointing out the superiority of British law in regard to the conducting of trials.

"The Franks case has been a three months' moral pestilence imposed upon our people before the trial," says the editorial. "It is an aggravated instance of what has happened with increasing frequency for two decades since the Thaw trial and before."

The injury to justice is in publicity before the trial. Newspaper trials before the case is called, have become an abomination. The dangerous initiative that newspapers have taken in judging and convicting out of court is journalistic lynch law.

"Prosecuting attorneys now hang on to the papers with their theories and confessions. Defence attorneys do the same. Neither dare do otherwise. Half-witted juries or prejudiced juries are the inevitable result." The Tribune admits it has its share of blame in this, and declares no newspaper can escape it. They have met demand, and in meeting it stimulated public appetite for more.

"There is no remedy," the paper adds. "Drastic restriction of publicity before the trial must be imposed by law. England, by custom and by law, imposes such restrictions. English papers print only the briefest and coolest statement of the facts before the trial."

Military College Report

Finding Justifies the Charges Made By Major Arnold

Ottawa.—The report of the subcommittee of the Advisory Council of the Royal Military College, Kingston, Ontario, which investigated charges made by Major Arnold, D.S.O., of Regina, that his son had been flogged by senior cadets and subjected to indignity, has just been made public.

The general tenor of the report justifies the charges that were made, but states that since the Arnold case, the discipline has been revived and supplemented to deal adequately with all future cases, while punishment has been awarded in the instance in question. It is not considered that additional measures are necessary.

Want Reimbursement Action

Toronto.—The committee, decided on active work from now until the next session of Parliament and the local committee of depositors throughout Canada were urged to keep their organizations active and intact, said a statement issued following the meeting of the National Committee of Home Bank depositors here. It was declared to be fully expected that early in the next session the Government would deal with the moral claim of depositors and would take steps to reimburse them.

A Treacy Sentence

Los Angeles.—An attempt to read every newspaper in this city each day for six months and rewrite the traffic accident stories in them in his own handwriting was the punishment meted out here to W. G. Lovell, 18, charged with speeding.

NEW WIRELESS SYSTEM TO BE TRIED IN CANADA

London.—Vernon Harborth, Postmaster-General, announced in the House of Commons that the Government had decided to adopt the main recommendation of the Imperial wireless telegraphy committee, which was appointed some months ago to inquire into the subject of Imperial wireless control. Robert Donald was chairman of the committee, which sent its report to the Government last February.

The committee recommended chiefly that the state, through the post office, should own all wireless stations in Great Britain for communication with the overseas dominions, colonies and territories; that the post office should operate all the Empire stations in Great Britain; that, as an alternative, an exception be made in the case of Canada, and that competition between post office and private enterprise in the Anglo-Canadian wireless service, which exists at present, be continued, provided that in any license granted for the Anglo-Canadian service, public interests are safeguarded as regards conditions of working and terms of expropriation by the state; that private enterprise be given facilities to develop wireless communication with Europe, as with the rest of the world outside the British Empire.

Mr. Harborth added that the Marconi Company, meanwhile, had submitted to the Government proposals with regard to so-called "beam" stations, and definitely arranged to erect a "beam" station in Canada. The Government has been prepared to co-operate in a trial of the new "beam" system, and an agreement would soon be submitted for the approval of the House of Commons whereby the Marconi Company would erect a "beam" station in Great Britain for communication with Canada, which would be capable of extension to South Africa and India and also Australia.

Brantford Appeals To Railway Board

Makes Formal Complaint Against Crow's Nest Freight Rate Agreement

Ottawa, Ont.—The city of Brantford has made a formal application to the Railway Commission for an order removing the discrimination against the city's industries in favor of Toronto and Hamilton, which is claimed to result from the coming into effect of the Crow's Nest Pass freight rate agreement. Protests have come from numerous other sources, but in this case the complaint is formal. The railway has been given 15 days in which to reply and afterwards the board will fix a date for the hearing. All the cases will be consolidated because the principle underlying them all is identical.

The broad question to be determined is whether the lower rates of the Crow's Nest schedule are to be considered as the original territory; served on the C.P.R. in 1917, or made general to the whole country.

Has Ride On Moose

Parson Comes to Canada From States For Novel Experiences

Frederick, N.B.—Rev. Dr. Thomas Trevis, Presbyterian clergyman of Mount Clair, N.J., who is visiting New Brunswick with the avowed intention of riding a bull moose for the movies, has accomplished his purpose. The moose riding stunt was successfully carried out in Grand Lake, near Wre, where the flies have been chasing the monarch of the forest to the lake for shelter.

A large moose was called up and driven into the water, and with the aid of boatmen, the sporting parson managed to mount the animal.

Find Lost Child

Tawellaw, Alta.—Wandering alone in the wilds of Northern Alberta for more than two weeks, and with the shelter, little Bobby Anderson, three-year-old son of Samuel Anderson, who lives nine miles from here, was found by a searching party on the bank of a stream. Little the worse for his sojourn away from home.

Here and There

Although it is only 18 years ago that Alberta became a province, its population has increased fourfold while the grain yield has increased twentyfold. Even at the present low prices, the total agricultural products of Alberta in 1923 were worth \$223,000,000.

Reports concerning the apple crop in the Annapolis Valley show that the entire crop, including the estimated local consumption, was 1,816,000 barrels. It is reported that 70,000 apple trees and 3,000 plum trees will be set out in the valley this spring.

The railways of Canada up to the end of last April earned \$8,000,000 more than they did for the corresponding period in 1923. This favorable result is due entirely to the fact that the people have been doing more business. All authorities are agreed that such a condition means growing trade.

Nearly 63,000 bushels of high class seed were handed at the Alberta government seed-clearing plant during the past season. A total of 22,823 bushels of Marquis wheat seed was hauled, 3,160 bushels of ruby wheat, 23,073 bushels of Victory oats, 17,600 bushels of Banner oats, and 6,400 bushels of Bark's Barley.

Three prizes for anglers at the bungalow camps on French River, Niagara River, and the Lake of the Woods, have been offered to Canadian fishermen by the Canadian Pacific Railway. The prizes are silver replicas of the bass and the trout, and a wonderful reproduction of the head of a fighting muscalonge.

Among the speakers to address the great convention of the Associated Advertising Clubs of the World at London, England, to be held July 14-17, will be E. W. Beatty, K.C., Chairman and President of the Canadian Pacific Railway. Mr. Beatty will speak on July 17, and has chosen as his theme "Building an Empire with Advertising."

Canada's national wealth in 1921 was \$22,195,000,000, according to a report just issued by the Dominion Bureau of Statistics. In the tabulation, agricultural wealth comes first with \$7,852,371,125, nearly 36 per cent of the total and about \$98 per head of population. The Western provinces lead, the Yukon topping the list with \$4,058. The first in absolute wealth was Ontario, to which is credited the sum of \$7,358,000,000, or thirty-three per cent of the Dominion total.

Shipping in and out of the port of Vancouver, B.C., for the calendar year 1923, showed an increase in all departments, according to the annual report of the Board of Harbor Commissioners. Over \$133,000,000 worth of goods were exported, an increase of \$10,000,000 over the value of the 1922 exports, while the imports totalled \$224,000,000, an increase of \$13,000,000 over the 1922 figure. Vessels numbering 13,698, representing a total of 8,427,583 net tons, entered and left the port, an increase over 1922 of 2,959 ships and 792,389 tons.

A party of 200 Canadian Weekly Newspaper Editors and their wives sailed for Europe on June 11th aboard the Canadian Pacific steamship "Melita." The party will visit the battle-fields of France and Belgium, seeing most important points in those countries, including Brussels and Paris and will be received by King Albert. Later, they will tour England and Scotland and are to be presented to the King and Queen at Buckingham Palace on Dominion Day. Returning on the Canadian Pacific steamship "Montserrat," they will visit Belfast, where Sir Robert Balfour, head of the Belfast Telegraph, will entertain them. They dock at Quebec on August 4th.

Wasting Public Money

Governing Bodies Should Have Some
Regard For Economy As
Individuals

There are at all times many things that cities would like to have or do that they really cannot afford. It is foolish to talk about, and much more foolish to demand, economy unless cities, states and the nation are prepared to follow the rule followed by sensible individuals and do without things that are beyond their means. He who does not govern his life thus is looked on either as a foolish man or a vulgarian. There will or cannot be economy, or anything resembling it, if public officials are as indolent and ingenious in finding ways not to spend money as they are in finding ways to spend it.—Indianapolis News.

Some Things Passengers Forget

Remarkable Collection of Articles in
Lost Property Sale

The forgetfulness of railway travellers is shown by the remarkable collection of lost property left on the Southwestern Railway and sold by auction at Waterloo Station, London.

The items included one ice cream barrow with rubber tires, a small twill bathing tent, two bottles of whisky, 35 bottles of port, 45 bottles of cider, and a bottle of brandy.

Other lots out of the ordinary were an illustration's stage case, 2 lifebuoys and a lifesaving waistcoat, 7 naval officers' tunics, jazz-band outfits, 60 pairs of false teeth, 3 artificial legs, 1 stump, and 1 iron, and 6 pairs of crutches.

His Flesh Horribly Burnt

His druggist sold him a cheap Acid Cream remedy, instead of giving him good old reliable Putnam's Corn Extract which has been for fifty years the standard remedy of corns and warts. Putnam's never fails, it is always a success. 25c everywhere. Refuse a substitute.

The Government of Switzerland has built a sun school high in the Alps for alpine children.

THE CAUSE OF SICKNESS

Almost Always Due to Weak and
Impoverished Blood

Apart from accident or illness due to infection, almost all ill-health arises from one of two reasons. The mistake that people make is in not realizing that both of these have the same cause at the root, namely poor blood. Either bloodlessness or some other trouble of the nerves will be found by the reason for almost every ailment.

If you are pale, suffering from headaches, or breathlessness, with palpitation of the heart, poor appetite and weak digestion, the cause is almost always poor blood. If you have nervous headaches, rheumatism, sciatica and other nerve pains, the cause is exhausted nerves. But run-down nerves are also a result of poor blood, so that the two chief causes of illness are one and the same.

If your health is poor: If you are pale, nervous or dyspeptic, you should give Dr. Williams' Pink Pills a fair trial. These pills act directly on the blood, and by enriching it give new strength to worn-out nerves. Men and women alike greatly benefit through the use of this medicine. If you are weak or ailing, give Dr. Williams' Pink Pills a fair trial and you will be pleased with the beneficial results that will speedily follow.

If your dealer does not keep these pills you can get them by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Chinese In Canada

Number Registered Under Act Of 1923

Was 40,351

When the period allowed for registration of Chinese in Canada, expired on June 30 last, 40,351 had registered under the act of 1923. This information was given in the House of Commons in answer to a question of A. W. Neill, Independent, Communist-Alberta. "Some Chinese undoubtedly will fail to register," was the answer given to a question as to whether these figures were complete.

At the last census, 39,587 Chinese were registered in Canada. Since then, 2,817 have registered into Canada as settlers, 1,124 registered out. Since the census, 598 Chinese died in Canada and 641 were born, up till December 31, 1922. Figures for 1923 are not available yet, says the return.

A First Step

Statesmen who are protesting against the printing of a menu in French might start with the elimination of the word "menu"—Washington Star.

Minard's Liniment for Rheumatism

You will be amazed, reading this, to discover the perfect simplicity of a beauty secret millions of women use.

Yet it is the most effective known. It will help you, too, in keeping the radiant loveliness of youthful skin.

Regularly, do this

Cleanse the skin regularly, authorities say, to keep your complexion lovely, radiant, youthful.

PALMOLIVE

The most effective beauty treatment known

—is this simple method. Millions now
employ it to keep youthful loveliness

But beware of harsh cleansing methods. They injure skin.

Wash thoroughly with Palmolive Soap—each night before retiring. Rub the creamy, foamy lather well into the tiny pores. Rinse—and repeat the washing. Then rinse again.

Then—if skin is dry—apply a little cold cream. That is all. Skin so cared for is not injured by cosmetics, by wind and sun, or by dirt.

The simple, correct way

You cannot find a more effective beauty treatment. Because Palmolive Soap is blended of rare palm and olive oils—famous for mild but thorough cleansing qualities since the days of Cleopatra. And it is inexpensive.

Just be sure it is Palmolive that you get. Note name and wrapper—for Palmolive is never sold unwrapped. All dealers have it. In one week you will see most encouraging results!

THE PALMOLIVE COMPANY OF
CANADA, LIMITED

New U.S. Submarine

Is Twice As Large As Any Undersea
Fighter Ever Built

The submarine V-1, twice as large as any undersea fighter ever previously built for the United States, was launched at the navy yards at Portsmouth, N.H., recently.

The new submarine, designed to accompany a battle fleet at sea in any weather, and at any speed at which the fleet is capable of making, is the first of a series of nine authorized by Congress in 1918.

The vessel's armament consists of six 21-inch torpedo tubes, one forward, 51 calibre rifle, and two Lewis machine guns. It is 341 feet long, has a displacement of 1,154 tons, a surface speed of 21 knots an hour, and speed of nine knots while under water.

Fresh Supplies in Demand.—Wherever Dr. Thomas' Electric Oil has been introduced increased supplies have been ordered, showing that wherever it goes this excellent Oil increases its power on the people. No matter in what latitude it may be found its potency is never impaired. It is put up in most portable shape in bottles and can be carried without fear of breakage.

Alberta's First Corn Show
Dates for Alberta's first corn show have been set for November 13 and 14 at Medicine Hat. This year about one hundred thousand ears of corn are being grown in Southern Alberta.

Corns cause much suffering, but Holloway's Corn Remover offers a speedy, sure and satisfactory relief.

Suggests Holding Exhibition Next Year
"This is the sixth or seventh year I have made to Wembley, but I have not made much headway at seeing it. I am saying this in order to back up the suggestion that the exhibition be opened again next year." This spoke the Prince of Wales in an address delivered in Wembley.

WHEN ATTACKED BY DYSENTERY You Should Take

And You Will Get
PROMPT RELIEF

When you ask for "Dr. Fowler's" be sure you get what you ask for, as some of these cheap, no-name, no-reputation preparations may prove dangerous to your health.

Put up only by The T. Millers Co., Limited, Toronto, Ont.

SUNDAY SCHOOL LESSON

ANGUST 3

THE FIRST DISCIPLES OF JESUS

Golden Text: Jesus saith unto him, Follow me. John 1:43.

Lesson: John 1:35-51.

Devotional Reading: Proverbs 2:13-18.

The Text Explained and Illumined
The Winning of Andrew and John, verses 35-38. On the morrow after the Baptist's conversation with the deputation from Jerusalem (verses 9, 10) Jesus to his disciples as the Lamb of God; on the morrow after that, two of his disciples, Andrew and probably John, were standing with the Baptist when again he saw Jesus in the distance and said to him, Behold, the Lamb of God. (The word Lamb is used for Christ more than seventy times in the Book of Revelation.)

The Baptist's words suggested to the two disciples that they follow the greater Master. On turning around and seeing them following, Jesus asked, "What seek ye?" He opened their minds because he wished to fill them with his teaching.

"Rabbi," they answered, "where abide thou?" "Rabbi" was a title of respect which they had been in the habit of addressing the Baptist (John 1:38). It was derived from a Hebrew root and meant "my greatness." Lightfoot thinks it had been long in use, that it arose during the rivalry of the schools of Hillel and Shammai. As it is used here for the first time in the Gospel, the Evangelist explains that John wrote his Gospel especially for Greeks, who would not understand Jewish terms.

The Friend of All Sufferers.—Dr. Thomas' Electric Oil is a valuable remedy to all those who suffer pain. It holds out hope to everyone and realizes it by stilling suffering everywhere. It is a salve that has the blessing of half a century. It is on sale everywhere and can be found wherever enquired for.

Mystery Of Condo
May Be Solved
Wreck Found Off Vancouver Coast
May Be British Ship

Light on the mystery surrounding the disappearance of the British schooner of war Condo, which left Esquimalt, December 2, 1901, with 104 British tars aboard, and of which no trace has since been found, is believed to have been discovered by W. P. Duvan, Federal District Engineer for Alberta, off the sands of Long Beach, on the west coast of Vancouver Island.

Traces of a British ship which Duvan believes may be the lost Condo, have been discovered inland, washed up in the heavy rains of 50 years, but it is impossible for him at this time to give detailed particulars.

Wooden houses are rare in Belgium. Real estate high, lots are small, and the yards which Americans enjoy are unknown except for villas owned by the well-to-do.

Minard's Liniment Heals Cuts

Empire Fittingly Represented

Wembley Exhibition Greatest Show
Of Its Kind in History

The Wembley Fair is described, without contradiction from the outside, as the greatest show of its kind in history. Its cost is estimated at \$20,000,000. It covers an area of 220 acres, or more than one-fourth the area of Central Park. Thirty million visitors are expected. But the exposition is not out of scale with the interests it represents. Behind it is an Empire of thirteen and a quarter million square miles with a population of nearly four hundred and fifty millions. And it is obviously a growing concern. The area of the Empire is larger than it was at the outbreak of the war. The increase in population has been less than twenty millions, but a very large part of the new territories, now virtually vacant of white inhabitants, is adapted to European colonization.—New York Times.

Prince Has Many Titles
The Prince of Wales, now 30 years of age, having been born at White Lodge, Richmond Park, on June 23, 1894, has for his full name and titles His Royal Highness Edward Albert Christian George Andrew Patrick David, Prince of Wales, Duke of Rothesay, Earl of Chester, Earl of Carrick, Baron Renfrew, Lord of the Isles, and Prince and Great Steward of Scotland, K. G.

There are many wild horses on the island of Iceland. Formerly they were shipped to England for use in the mines, but that market is closing since mining machinery was adopted.

IT PAYS TO ADVERTISE!

The Sunday school in connection with the local Methodist church will resume its sessions Sunday next.

Mr Wood made a business trip to Edmonton on Monday.

Smith & Anderson, who bought out Mr Schadeck's tinsmithing business, are now operating.

The Women's Institute held a meeting the afternoon of the 24th at the McKinlay cottage, Edmonton Beach.

The Mission Festival at the Lutheran church at Blueberry on Sunday was a very successful affair, with a large turnout of the congregation present.

The Mission Festival on the 27th at the Golden Spike Lutheran Church presided over by Pastor Hildebrandt attracted quite a large attendance. Mr C Geistlinger's band discoursed sweet music during the afternoon.

The picnic of Brightbank Sunday school was held the 24th on the McVish farm, and was a very enjoyable affair. All the games in connection with a first-class picnic were on the bill-of-fare, and were well-contested, and good prizes were awarded the winners.

Arrangements are being completed for the holding of a big Community picnic at the farm of Mr M Gambel, at Glory Hills.

Holborn U. F. W. A. are giving a confetti dance at the Hall, Friday Aug. 1. Martin's orchestra.

Tires and tubes vulcanised and repaired at Stony Plain Garage. 4109

NOTICE TO CREDITORS.

IN THE DISTRICT COURT OF THE DISTRICT OF EDMONTON.

IN THE MATTER OF THE ESTATE OF FRANK THREY, DECEASED.

NOTICE is hereby given that all creditors of and all persons having claims against the estate of Frank Threy, late of the District of Stony Plain, in the Province of Alberta, Gentleman, deceased, who died on or about the 27th day of February, 1924, are hereby required to send by registered post prepaid or deliver to F. W. Lundy, Executor, Stony Plain, Alberta, the Solicitor for the Executors of the said estate on or before the 18th day of August, 1924, their names and addresses with full particulars in writing of their claims and statements of their accounts and the nature of their security (if any) held by them duly verified by statutory declaration.

AND FURTHER TAKE NOTICE that after the said 18th day of August, 1924, the executor will proceed to distribute the assets of the said deceased amongst the parties entitled thereto, having regard only to the claims of which they shall then have notice, and they will not be liable for the said assets or any part thereof so distributed to any person or persons of whose claim notice shall not have been duly received by them at the time of said distribution.

DATED at Stony Plain, this 24th day of July, 1924.
F. W. LUNDY,
Stony Plain, Alberta.
Solicitor for the Executors, Otto Oppenheimer and John Amundson.

Sporting Notes.

The League ball game here on the 23d was a rather tame affair, the visiting team, Wabamun, being so crippled for players they were unable to offer any resistance to the onslaught of McCulla's Regulars. In a seven-inning game called on account of darkness the score stood 16-4 against the team from the West.

Sunday's ball game with Wabamun looked like easy pickings for the Stonys. So Big Chief McCulla took up a bunch of the boys for the contest. Wabamun had evidently made good preparation for the game, having Savard and several other good out-of-town players on the team, with the result that Wabamun won, 7 to 5. Stony's battery, Chesser and Zucht. The game must have taken place in a flower garden, as the right-fielder's alibi for missing an easy fly was, that he had tripped over a cowslip.

On invitation of the Duffield footballers, Stony's kickers made the trip to the western town on the 24th. Some very good playing was seen, the Braves being right in their element, and the Stony players were surprised when play ended and found the score 1-0 against them. Another match is being arranged.

Sunday next will see a good-sized pilgrimage of local sports to Evansburg, as, in addition to the regular scheduled baseball game, the footballers are going up to try conclusions with the kickers at the mining town west.

There was no baseball game yesterday, but Stony's ball team is leaving this morning to play at Duffield.

Baseball Schedule.

Stony Plain at home—

Aug. 6 Evansburg

13 Duffield

20 Wabamun

Stony Plain away—

Aug. 3 Evansburg

17 Duffield

24 Wabamun

	Won.	Lost
Stony Plain	8	3
Duffield	6	5
Evansburg	3	6
Wabamun	3	6

News from the Grove.

Mr and Mrs Herman Loeblich of Spruce Grove, announce the engagement of their daughter Hilda, to Mr Howard Blodgett of Tacoma, Washington, the marriage to take place in Tacoma Sunday August 3d. Miss Hilda is at present in Vancouver, visiting her brother, Mr Fred W Loeblich, and Mrs Loeblich. The party will go to Tacoma about the first of the month. Several members of the family at Spruce Grove are expected to be present at the marriage.

Services will be held in St Joseph's Church, next Sunday morning by the Rev Father Murphy.

Haying has been delayed in this district owing to the unfavorable weather.

Stony Plain and District

That well known sport and enterprising farmer, Mr Dan McKinlay, has been laid up the past week with an attack of lumbago.

Mr and Mrs Malloch returned to Stony Plain on Monday.

The residents at Edmonton Beach had a very enjoyable evening Saturday last, starting with a wiener roast at 8:30, and winding up with a dance in the big club house.

W M Washburn, M. L. A., addressed a large and enthusiastic meeting at Community Hall, Winterburn, on Friday night. Saturday night, Aug. 2d, a meeting will be held in Duchak's Hall, Stony Plain. Opposition speakers will be given a chance.

Officer Smith, of the local Detachment, was called down to Clymont yesterday morning, where a young man named John Stanton had been found that morning by his brother with the top of his head blown off. The deceased had met with the accident while out hunting rabbits. After investigating the matter, the constable was satisfied that death was due to an accident.

The big rain storm of late Friday night did not do the damage to the crops it was feared would happen, the hail which accompanied the rain being in a very narrow strip. Lightning struck the house on Second street recently vacated by Mrs Williams, tore shingles from the roof and a few boards from the side, but did not set fire to anything. Hail on Saturday did some damage to the crops east of Spruce Grove, in several instances the damage running up to 40 per cent.

Comet School Board held a meeting on Tuesday evening, when the secretary was instructed to receive applications for the position of teacher.

Railway Time Table.

Grand Trunk Railway.

Going east, 2:40 p.m.—Sunday, Mon., Wed., Thurs., Friday, and Saturday.

4:49 a.m. every morning, stops on flag only.

Going west, 1:30 p.m.—Prince Rupert Express, every day except Sunday.

2:17 a.m. every day, Vancouver Express, stops on flag only.
